

Leap

High-Performance Seating

Absolute Adjustability

Leap lets you dial in a precise fit in all the places you need it most. It's highly intuitive, with manual adjustments that are clearly labeled and easy to use. You'll love the way the seat glides back and forth as you recline, keeping you connected to your work.

Design Details

Designed to conform to the one-of-a-kind shape of your unique spine, Leap is inclusively engineered to adjust and fit the broadest range of users. Every Leap chair is as unique as the person who sits in it. All manual adjustments are clearly labeled in English and Braille with detailed adjustment instructions under the arm cap to ensure a precise user-fit for long term comfort and support.

Performance Features

LiveBack® Technology

Lower Back Firmness Control

Natural Glide System™

Labeled adjustments *(braille + EN)*

Features

Back Support

Our first chair designed with LiveBack® technology which allows the back to contour and adapt to mimic and support the natural movement of your spine, providing continuous lower back support.

Manual Natural Glide Mechanism

A manually adjustable chair gives you total control over adjustments to dial-in the level of recline resistance you feel in the backrest. The seat glides forward as you recline, keeping you connected to your work.

Recline Adjustments

Recline range includes full recline with four recline angle stop settings and an upright back lock.

Labeled Adjustments

Adjustments are labeled in English and braille for ease of use. More instructions as well as a QR code to the adjustability video can be found by sliding the arm caps.

4D Arms

4D fully adjustable arms come standard and adjust in four dimensions height, width, depth and pivot to better support your neck and shoulders.

Lumbar Support

Includes standard height-adjustable lumbar as well as a lower-back firmness you feel in your lower back for additional lumbar support.

Seat Ergonomics

Leap's flexible edges offer a bend right where you need it—providing a pressure-free sit and supporting different sitting styles.

Additional Options:

- Chair or Stool or Leap Plus Bariatric Chair (tested + warranted to 500 lbs)
- 4D arms (standard), armless, height-adjustable arms
- Hard dual-wheel casters (standard) or soft, roll-control or glides
- Headrest
- Polished Aluminum Package (Chair only)
- CarbonNeutral® product certification

Leap helps organizations achieve their carbon emission goals. Add **CN** to the end of the style number to specify Leap with CarbonNeutral product Certification.
